Anatomy is study of

- Structure
 - Organization
 - Internal working
 - Hierarchy chart

Software House

- ▶ “A software house is a company that primarily provides software products. These companies may specialize in business or consumer software or software-as-a-service (SaaS) products.
- ▶ The common definition is that the company is mainly invested in developing and distributing software products”

- 
- ▶ Management includes a board of directors that oversees strategic decisions, a CEO that manages daily operations, and departments like IT, production, finance, purchasing, marketing, and sales. Effective staff management involves clear goals, strong relationships, recognition, training, and empowering employees.

Anatomy of a software House

Shareholders

- Owners of the company
- Elect the board of directors
- Vote on issues
- Same for private and public companies

Board of Directors
